Welcome to Brocade Education. Brocade Education provides free 24x7 self-paced online training for Brocade SAN products and technologies, helping customers and partners build the critical skills needed to install, configure, administer, troubleshoot and maintain SAN environments utilizing Brocade products. Each course includes a short assessment and once completed provides a course completion certificate.

For those new to Brocade Education, we offer a [Brocade Education Fundamentals Curriculum Path](#) for those interested in gaining a solid foundation of knowledge in Fibre Channel Storage Area Networking (SAN). This learning path was created for anyone not yet familiar with Brocade products and technologies as well as those looking for a refresher prior to enrolling in more advanced training. Our online course catalog is available [here](#) and updated when new courses are added to the Learning Portal.

Registering for a free Brocade Education Learning Portal account can be completed in the steps below. *Note, Internal Broadcom/Brocade employees access the learning portal via the Learning @ Broadcom tile in Okta.

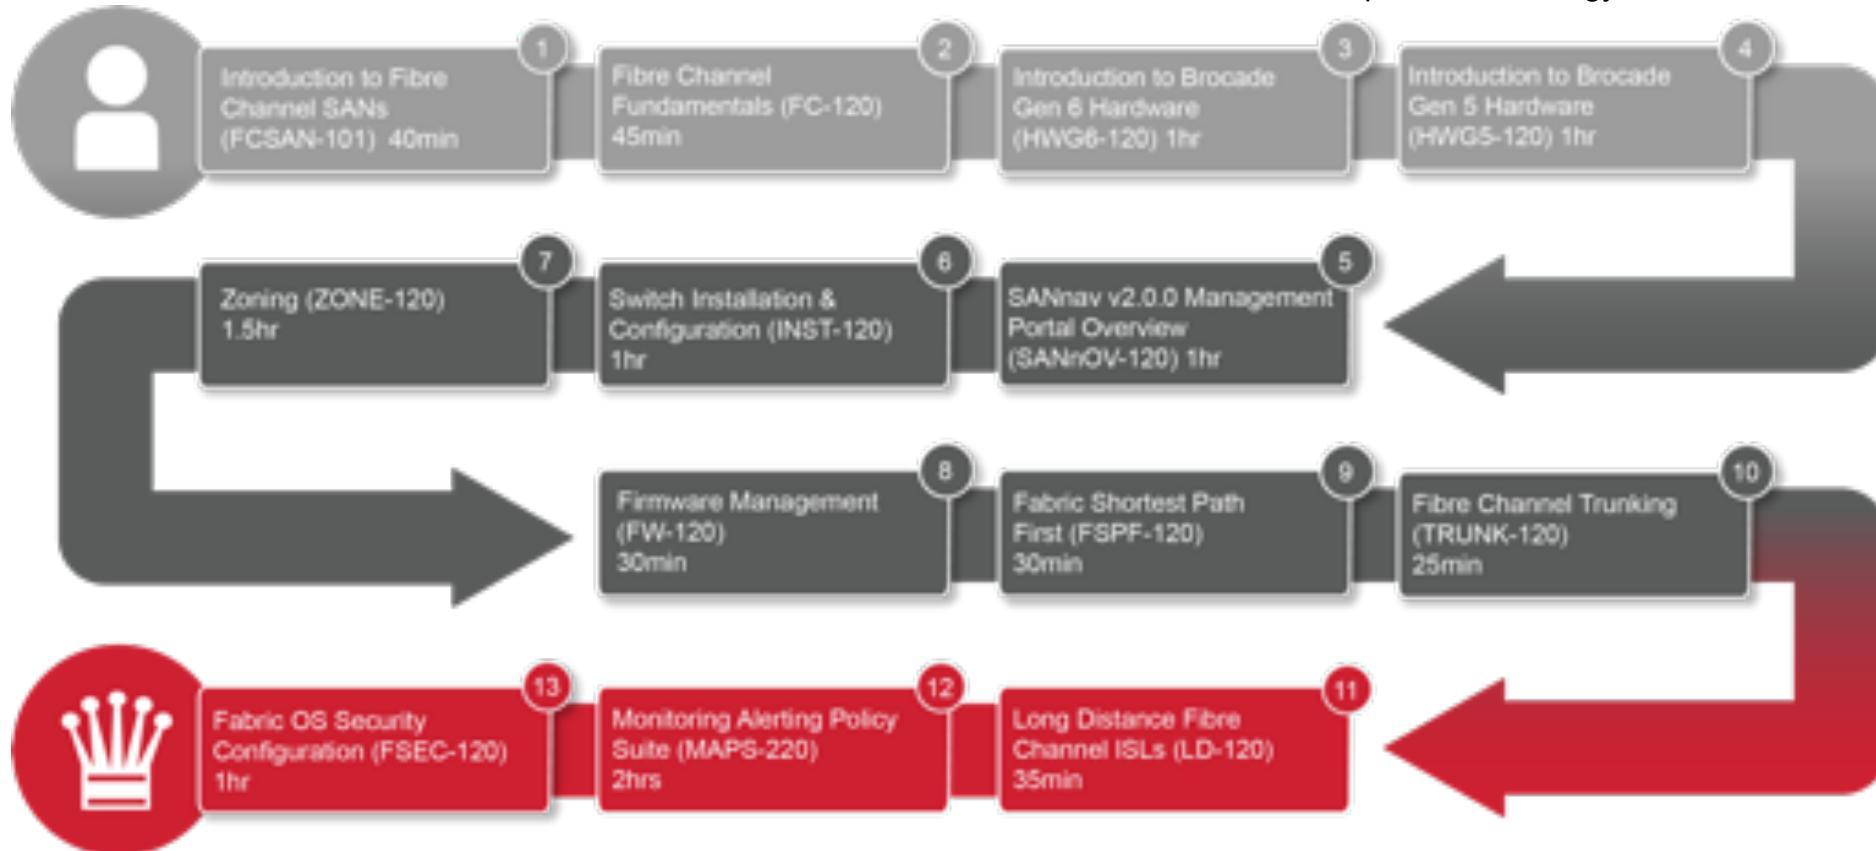

Brocade Education Fundamentals Learning Path

Brocade Education Fundamentals

The Fundamentals Learning Path

Designed for those interested in gaining a solid foundation of knowledge in Storage Area Networks, this learning path is intended for anyone not yet familiar with Brocade products and technologies.

For those who already have a strong understanding of Fibre Channel and SAN protocols and technologies, including Brocade hardware and software, the Fundamentals learning path can be a valuable refresher. These courses provide the framework for the more advanced training that is available below broken out into specific technology areas.
